IE CRM (Mission Control) + AI System

Where We're At & Where We're Going

Prepared March 2026

Mudge Family — Business Strategy Briefing

🏗️

Part 1
The CRM

🤖

Part 2
The AI System

💰

Part 3
The Money Case

Part 1: The CRM — What's Built

A custom CRM built from scratch for IE commercial real estate

We didn't buy Salesforce or some generic software. We built a CRM designed specifically for how **we** do commercial real estate in the Inland Empire. It's live, it's fast, and it's accessible from anywhere.

✅ Properties

All properties — addresses, sizes, pricing, owners, parking, stories

✅ Contacts

Everyone we work with — names, phones, emails, linked to companies

✅ Companies

LLCs, corporations, property firms — linked to contacts and properties

✅ Deals

Track every deal first conversation to close — commission formulas built in

✅ Comps

Lease and sale comps with all IE industrial fields that matter

✅ Interactions

Log every call, meeting, email — full history tied to contacts and deals

✅ Campaigns

Email outreach campaigns — track who got what and their response

✅ AI Chat Built In

Claude lives inside the CRM — ask questions, run lookups, get instant answers

💡 Smart Features Already Working

Spreadsheet editing — Click any cell, edit right there. Sort, filter, search.
Linked records — Click a contact → see their company, properties, deals, all connected.
Data import — Pull data from Excel, CSV, PDFs, even photos of documents.
Cloud hosted — Accessible from any computer, anywhere. Always up to date.

CRM — What's Still Left to Build

The foundation is done — these connect the AI and go mobile

🔨 Agent Dashboard

Live view of what our AI agents are doing — what they found, what needs review

🔨 Approval Queue

Review AI findings before they touch our real data — quality control layer

🔨 Team Messaging

Built-in chat for David, Dad, Sarah, and Houston (our AI team member)

🔨 iOS App

Mobile CRM + messaging — check deals and get alerts from your phone

🔨 Email Sending

AI drafts emails, we approve, they send automatically

🔨 AI Connections

Backend plumbing that lets the AI agents read from and write to the CRM

📌 Bottom Line on the CRM

The core CRM is **solid and working** — 8 sections, smart editing, AI chat, data import.
What's left is connecting the AI and going mobile.

Part 2: The AI System — How It Works

Think of it like hiring 4 employees who work 24/7 and cost almost nothing

Imagine hiring **4 employees who work 24/7, never sleep, never take breaks, and cost almost nothing to run.** Each one has a specific job. They report to a smart manager. That manager gives us a briefing every morning. The hardware is already purchased — **Mac Mini arrives next week**, **Mac Studio arrives early June**.

TIER 1 — THE STRATEGIC BRAIN

🧠 Houston (Claude)

Chief of Staff • Reviews everything • Morning briefings • Recommends opportunities • Improves the system weekly

⬇️ reviews & approves ⬇️

TIER 2 — QUALITY CONTROL

💬 ChatGPT

Checks the agents' work every 10 minutes

✨ Gemini

Second pair of eyes for validation

⬇️ validates before anything touches CRM ⬇️

TIER 3 — THE 24/7 WORKFORCE (Runs on Our Hardware)

🔍 The Researcher

Scans the internet 24/7 — news, expansions, hiring signals, lease expirations

Finds the opportunities

🔎 The Enricher

Finds the real person behind an LLC, verifies emails, phones, addresses

Verifies the contacts

✉️ The Matcher

Matches market reports to our contacts, drafts personalized outreach

Creates the outreach

📋 The Logger

Tracks everything, spots when multiple signals point at the same company

Keeps the records

🖥️ **Mac Mini (48GB) — Arriving Next Week**

🖥️ **Mac Studio (128GB) — Arriving June**

🔒 How Data Flows — The Safety System

Nothing touches our CRM until we approve it

1 AI Agents Scan the World 24/7

CRE news • Public records • Job postings • Social media • White Pages • County filings

↓

2 Everything Goes to the Sandbox First

A "review inbox" — contacts, signals, outreach drafts wait here. **Nothing goes live until we say so.**

↓

3 Quality Control Reviews It

ChatGPT + Gemini check every 10 minutes: "Is this accurate? Is this useful?" Bad data → rejected.

↓

4 Houston Reviews & Recommends

Chief of Staff reviews the best signals, spots patterns, recommends what to act on.

↓

5 David Reviews & Approves

Quick approve/reject via Telegram from his phone. Takes 2 minutes.

↓

6 Clean Data Enters the IE CRM ✅

Only approved, verified data makes it into our real database.

🔒 **KEY SAFETY RULE: The AI can never write directly to our CRM. Humans always approve first.**

💬 How We Communicate With the AI

Two channels — one for the team, one for David's operations

🧠 Houston (Claude) — One Brain, Two Channels

💬 CRM Messaging App

The whole team sees this

👤 David 👤 Dad 👤 Sarah 🤖 Houston

What Houston posts here:

- 📊 Morning team briefing
- 🔥 "XYZ Corp is expanding — call them"
- 📧 "5 outreach emails ready to review"
- 📈 Weekly market summary
- 🎯 "3 signals pointing at this company"

❌ **No technical alerts or system status**

Personality: Professional but warm. Smart team member, not a robot. Max 3-4 posts/day.

📱 Telegram (Private)

Only David sees this

👤 **David only — private operations channel**

What Houston posts here:

- ⚙️ System status — "All 4 agents running"
- ✅ "5 contacts ready — approve?" → Yes
- ⚠️ "Rate limit hit, resuming midnight"
- 💡 "Should I add a dissolved LLC filter?"
- 📋 Full ops morning briefing + health

✅ **Quick commands: /approve /status /health**

Command center: Approve contacts in 30 seconds. Full control from phone.

☀️ A Typical Day With the System Running

🌙 Overnight

AI Agents Work While We Sleep

Researcher scans 200+ sources. Enricher verifies 40-50 contacts. Matcher drafts outreach. Logger tracks everything.

☀️ 6:30 AM

Houston Sends the Morning Briefing

Team: "12 contacts verified, 2 expansion signals." **David's Telegram:** Full ops + "Pacific West has 3 signals. Outreach? (yes/no)"

📱 6:35 AM

David Approves From His Phone (Still in Bed)

Opens Telegram. Taps "Yes" to outreach. Taps "/approve_all_high" for 8 contacts. Done in 2 minutes. Makes coffee.

☕ 8:00 AM

The Team Starts Their Day With Intel Ready

Dad opens the CRM. Houston's briefing is there: "2 hot leads, 5 emails queued." No scrambling — intel found while everyone slept.

🏢 All Day

AI Keeps Working in the Background

While the team makes calls, the AI keeps scanning. If something urgent pops up, Houston alerts everyone immediately.

📅 Weekly

The System Gets Smarter Every Week

Houston reviews what worked, tunes agents. After 6 months it's like a veteran analyst who knows our market.

Part 3: The Money Opportunity

Why this translates to more deals and more dollars

❌ Today (Manual)

- 2-3 hours/day on research
- Market reports sit in email
- Hear about moves weeks late
- Forget to follow up with contacts
- Lease expirations catch us off guard
- Trends noticed too late

✅ With AI System

- AI researches 24/7 — review in 15 min
- Reports matched to contacts same-day
- Signals caught day-of — days ahead
- AI flags dormant contacts in hot markets
- Expirations tracked months in advance
- Emerging trends caught first

⚡

Speed to Market

First call wins in CRE. We find signals days before competitors.

📈

Volume Without Headcount

Output of a 4-person team — without the salaries.

🌙

Never Sleeps

24/7, 365 days. No weekends, no sick days.

🧠

Gets Smarter Over Time

Self-improving every week. After 6 months, like a veteran analyst.

💳 The Investment

What it costs vs. what it replaces

🖥️ Hardware (Already Purchased)

Mac Mini M4 Pro (48GB)

Arriving next week

✅ **Paid cash**

Mac Studio M4 Max (128GB)

Arriving early June

✅ **Apple 0% APR plan**

💳 Monthly Software Costs

Service	Role	Cost
Claude (Max Plan)	Houston's brain	**$200/mo**
ChatGPT Pro	Quality control	**$20–$100/mo**
Google Gemini	Quality control	**$20–$100/mo**
Total Monthly		**~$240–$400/mo**

HIRING HUMANS

$200K+

per year

3-4 research assistants
Benefits, management, turnover
Works 9-5, weekdays only

VS

OUR AI SYSTEM

~$4K

per year (software only)

4 AI agents + Houston
No benefits, no management
Works 24/7, 365 days/year

📅 Timeline — What Happens When

✅ NOW	**CRM is live with all core features** AI system designed. Hardware purchased and on the way.
NEXT WEEK	**Mac Mini arrives — first AI agent goes live** Enricher starts verifying contacts 24/7. David reviews via Telegram.
WEEK 2-3	**Researcher + Logger come online** 24/7 internet scanning. Daily logs. Quality control active.
MONTH 1	**All 4 agents running — Houston starts daily briefings** Morning briefings, approval queue, team intelligence. Full system live.
MONTH 2	**Self-improvement kicks in — system gets smarter weekly** Houston tunes agents. Outreach matching goes live.
JUNE	**Mac Studio arrives — bigger models, faster processing** Studio handles precision, Mini handles volume. Team messaging live.
6 MONTHS	**Genuine competitive weapon** 6 months of compounding intelligence. Harder for competitors to catch up every week.

<div style="background: linear-gradient(135deg, #1e3a8a, #7c3aed); border-
            radius: 16px; padding: 26px; margin-bottom: 20px;">
    <div style="font-size: 10px; color: #93c5fd; font-weight: bold; text-
  transform: uppercase; letter-spacing: 2px;">The Competitive Moat</div>
  <div style="font-size: 19px; font-weight: bold; color: white; margin-top:
     8px;">Nobody in IE Commercial Real Estate<br/>is Doing This</div>
   <div style="width: 50px; height: 2px; background: #93c5fd; margin: 14px
                               auto;"></div>
      <div style="font-size: 11px; color: #c7d2fe; line-height: 1.7;">
  The big firms use generic software everyone has — Salesforce, CoStar.<br/>
                                   <br/>
    We built something custom for <strong style="color: white;">our market,
             our contacts, our workflows.</strong><br/><br/>
      Every month this runs, our data gets better, our response time gets
   faster, and the gap between us and competitors <strong style="color:
                 white;">gets wider and wider.</strong>
                                    </div>
                                   </div>

<div style="background: linear-gradient(135deg, #1e3a8a, #7c3aed); border-
                      radius: 16px; padding: 24px;">
  <div style="font-size: 19px; font-weight: bold; color: white;">The Bottom
                                 Line</div>
   <div style="width: 50px; height: 2px; background: #93c5fd; margin: 10px
                               auto;"></div>
      <div style="font-size: 11px; color: #c7d2fe; line-height: 1.6;">
           Custom CRM built for how we do business in the IE.<br/>
  AI system working 24/7 finding opportunities, verifying contacts, drafting
                                 outreach.
                                    </div>
   <div style="display: inline-block; background: rgba(255,255,255,0.12);
        border-radius: 10px; padding: 12px 24px; margin: 12px 0;">
  <div style="color: white; font-size: 13px; font-weight: bold;">~$300/month
                    vs.  $200K+/year in salaries</div>
    <div style="color: #93c5fd; font-size: 9px; margin-top: 3px;">Hardware
              already purchased • Software costs only</div>
                                    </div>
   <div style="width: 50px; height: 2px; background: #93c5fd; margin: 10px
                               auto;"></div>
<div style="font-size: 16px; font-weight: bold; color: white;">This isn't a
          tool.<br/>It's a team member that never sleeps.</div>
 <div style="font-size: 11px; color: #c7d2fe; margin-top: 4px;">And it gets
                     smarter every single week.</div>
                                   </div>

      <div style="color: #aaa; font-size: 10px; margin-top: 28px;">
